Computation's FREE Earth Week 2020
Computer & E-Waste Recycling Event: April 20th – 26th

TORONTO, CANADA - From April 20th – 26th Computation Ltd. is inviting you to drop off your unwanted electronics and computer equipment for reuse and recycling, absolutely free of charge! We guarantee that all items that we cannot re-purpose will be disposed of in an environmentally sensitive manner and will ensure your privacy by destroying all data on any received equipment. Here at Computation Ltd. we are faithful adherents of the **3R**s of sustainability: **R**educing and **R**eusing as much as possible, and **R**ecycling the remainder. Items we accept include (but are not limited to):

- Desktops, Laptops, Servers, Computer Accessories, Peripherals and Cables
- Monitors, Televisions, and Gaming Consoles
- Laser, InkJet, 3D Printers & Electronic Test Equipment
- Audio & Visual Equipment, Speakers, Amplifiers, Instruments, and Reel to Reel
- Power Tools & Phones (Corded or Battery Powered)
- Drones & Espresso Makers (Yes, we recycle these too!)

In accordance with Covid-19 guidelines we ask that our customers practice social distancing and will only be allowing one customer in at a time for drop-offs. We also offer contactless drop-off – just leave your items outside our storefront and we will take care of the rest! We thank you for you co-operation during these unprecedented times.

Businesses, individuals with large quantities, and those with specific requirements such as pick-up, data destruction or asset management should contact us for more details about our services. All information present on systems we process will be securely destroyed, and our processes divert the maximum amount of material from landfill.

We are offering free pick-up to businesses whose e-waste and computer recycling needs meet certain criteria – if your server room is getting full, you know who to call!

The event will take place in Toronto at 280 Jane St., from 10:00am until 7:00pm Monday through Friday and from 10:00am until 6:00pm on Saturday & Sunday.

For more information, call 416.629.5667 or email recycle@computation.ca
